*Congreso Latinoamericano de innovación frugal,
tecnologías sociales y ciencia ciudadana para la justicia
social y ambiental*

CALL FOR PAPERS

Motivation for a call to participate in a conference

Today's social, environmental, and economic challenges demand new ways of thinking and acting. In response to this reality, **Frugal Innovation, Social Technologies, and Citizen Science** are emerging as powerful pathways to guide Latin America toward a more inclusive, sustainable, and resilient economy. The First Latin American Congress on Frugal Innovation, Social Technologies, and Citizen Science, held under the theme "**Worlds of Transformation**," brings together researchers, entrepreneurs, social organizations, and public policy leaders to share experiences, methodologies, and insights that—through collaboration and creativity—open new horizons for change.

The event is conceived as a space for dialogue and co-creation, where academic and community knowledge will converge to foster alliances capable of scaling innovative solutions to pressing issues such as access to basic services, environmental degradation, and inequality. Its ultimate goal is not only to provide a platform for the dissemination of experiences and relevant analyses on these fields, but also to lay the foundation for long-term regional cooperation with far-reaching impact.

Bogotá, Colombia

May 27, 28, and 29, 2026

Target Audience:

The First Latin American Congress on Frugal Innovation, Social Technologies, and Citizen Science seeks to bring together academics, entrepreneurs, industry professionals, non-governmental organizations, public policy managers, and representatives from social-sector institutions who are interested in exploring how Frugal Innovation and Citizen Science can transform processes, methodologies, and business models to advance toward a transformative economy in the region.

Topics:

- *Frugal methodologies applied to the design of processes, services, and technological solutions.*
- *Education and training in Frugal Innovation and Citizen Science.*
- *The university's role in the local implementation of Frugal Innovation and Citizen Science initiatives.*
- *Integration of Frugal Innovation into innovation systems and policy frameworks.*
- *Frugality and digital technologies.*

- *Analysis of significant experiences focused on the participatory generation and/or management of scientific and technological knowledge by citizens.*
- *Presentation of regional initiatives in Frugal Innovation or Citizen Science.*
- *Discussion of methodological advances in the production of scientific knowledge and technological innovation led by citizens.*
- *Ecosystems, networks, and support communities for Frugal Innovation and Citizen Science.*

This list is indicative and not exhaustive. Submissions addressing related or complementary themes connected to Frugal Innovation, Social Technologies, and/or Citizen Science are welcome

Participation Modalities

Proposals may be submitted under the following modalities:

Workshop: *Proposals are accepted for developing 60-minute interactive workshops focused on practical and experiential learning through participatory activities, skill-building, and co-creation among attendees.*

Roundtable: *Proposals are accepted for 60-minute dialogue spaces to collectively debate and reflect on a central question of interest, with defined moderation and expected outcomes.*

Paper Presentation: *A 15-minute oral presentation to share completed or ongoing research, describing objectives, methodology, results, and conclusions relevant to the event's themes.*

Poster/Fair/Audio-visuals: *A session for displaying posters, products, or audiovisual materials that present research results or practical experiences related to the congress themes.*

Practical Case Presentation: *A 15-minute oral presentation in which professionals or social actors share real experiences, good practices, and lessons learned, including successes or failures.*

Registration Fees:

Presenter (students/entrepreneurs): USD 40
General attendance for 3 days: USD 60

Presenter (teachers/researchers): USD 80
1-day attendance: USD 25

15% "early bird" discount until February 28. **March 22, 2026.**
